seven fresh luxury door styles

ENDLESS POSSIBILITIES

The following pages highlight seven fresh luxury door styles to further expand upon the endless possibilities that Rutt HandCrafted Cabinetry has to offer. Since all of our projects are built to order, with styles ranging from traditional to contemporary, and everything in between, the choice to feature an existing Rutt door configuration for your cabinetry or to customize your design entirely is yours. Either way, the finished product will be a true work of art, handcrafted by some of the best artisans in the industry.

Ventrex

RUTT'S NEW VENTREX DOOR COLLECTION IS "REDEFINING WOOD"
THROUGH ITS NEW OFFERINGS IN SYNCHRONIZED TFL'S.

Rutt introduces its complete Ventrex Synchronized TFL Collection of doors featuring an exclusive synchronized deep wood texture material crafted by Milan's leading design community, inspired by Italy's best modern styles and produced here in North America. Always on the lookout for the latest trends and passionate about design, Rutt's new Ventrex Door styles offer innovative textures and features that capture the essence of nature's inherent beauty, authentic earthy textures, and unique hardware options. Ventrex is being made available in a palette of 6 exciting colors that pay tribute to the pure elements found in the most spectacular natural settings. Following a continuous evolution in our innovative products Ventrex will be offered in a variety of hardware-less looks and finishes. The Ventrex product selection is sure to inspire you to get creative with your projects.

Penone

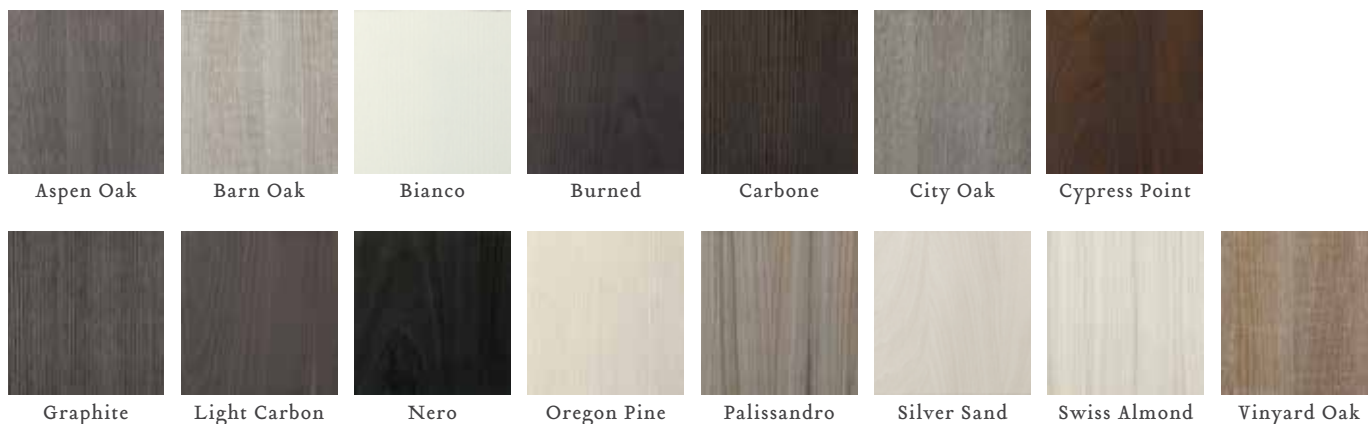

RUTT IS PLEASED TO ANNOUNCE THEIR RECENT COLLABORATION WITH CLEAF, ITALY'S FINEST CONTEMPORARY MATERIAL MANUFACTURER TO CREATE THE PENONE DOOR STYLE.

The Penone family of door finishes will be constructed from a state of the art manufacturing process called Thermally Textured Surfaces (TTS) which gives you materials ranging from deep linear patterns to deep embossed grains providing the most realistic textured products in the industry plus an extremely durable scratch resistant finish. Sequential Grain matching is a standard procedure when selecting this product from Rutt, each cabinet door and drawer front will align both vertically and horizontally based upon the cabinet layout and sheet material size limitations. Currently there are 15 different finishes to select from.

Rotella

RUTTS NEW HIGH GLOSS ACRYLIC COLLECTION PUSHES HIGH GLOSS CABINETS TO HIGHER LEVELS

For lovers of contemporary visually dramatic design, Rutt HandCrafted Cabinetry presents captivating ways to get your gloss on with their Rotella High Gloss collection. These aesthetically appealing, highly durable finishes are available in 15 luscious colors, patterns, and wood grains, including two shades of the ever-popular white. The levels of high gloss coatings include PET film and UV Lacquer, both of which possess high gloss sheens of 90% creating a glass-like European gloss finish that provides the deepest-depth in beauty. Both of these high gloss options offer exceptional scratch, heat, and chemical resistance, as well as UV protection to inhibit discoloration making them extremely durable and easy to clean and care for.

RAUVISIO NOIR™ LAMINATES BY RUTT

MONOTONIC MATTE SURFACE MATERIAL IS AN INNOVATIVE PRODUCT CREATED FOR INTERIOR DESIGN

The Aletto collection combines elegant aesthetic style with state-of-the-art technology. This laminate is forged with the finest materials to create a monotonic matte surface building a refined foundation for even the most exuberant designs. The panel surface has unique properties such as low light reflectivity which gives it a Super Matte sheen thanks to its extreme opacity and the finish is soft to touch with an Anti-Fingerprint feature. The self healing characteristic of the surface makes it highly resistant to superficial micro scratches and abrasion, as well as to stains. The Aletto collection by Rutt will be available in 12 spectacular colors for you to select from.

WE HERE AT RUTT ARE EXTREMELY EXCITED TO INTRODUCE  treefrog
A PREFINISHED, REAL WOOD VENEER LAMINATE.

Simply put, it is similar to a plastic laminate, except instead of a décor paper face, the “face” of Treefrog is a real wood veneer - richer, warmer and more deeply textured. The real wood veneer is then coated with a matte or low gloss polyurethane topcoat in a controlled manufacturing environment for a more consistent and uniform look giving you an end result of sheer beauty. Treefrog is made in Italy and is manufactured to meet European and American workplace and environmental standards.

Door Material:	Pre-Finished Wood Veneer
Door/Drawer Front Details:	Flat 3/4” Slab
Casework Options:	Classic and Regency Contemporary
Hinge Options:	Concealed
Edge Treatment Options:	Matching Edge Banding all 4 sides

Pelham

ONCE AGAIN RUTT HAS LISTENED TO ITS DEALERS
AND WHAT THEIR CUSTOMERS ARE LOOKING FOR.

The Pelham door style is one that provides you with a variety of simplistic clean looks all within the same door style. When using our Traditional 3/8" or 1/4" inset beaded face frame with an elegant finial hinge in your choice of finish it creates that "not quite" traditional inset look. Or change it up by using a plain profile inset face frame along with a concealed hinge for a more sleek transitional appearance. Pelham is an MDF door with standard hardwood constructed face frames and will be available in all of our standard paint offerings as well as custom paint.

PELHAM Shown in Super
White

Door Material:	MDF w/ hardwood edge (for hinge/hardware mounting)
Door/Drawer Front Details:	Flat Slab Inset
Casework Options:	Classic and Regency Traditional - All inset frame details available
Hinge Options:	Concealed, Finial (all finishes)
Edge Treatment Options:	N/A

Inset casework option

SoHo

SIMPLISTIC AND CLASSY ARE A FEW WORDS THAT COME TO MIND
WHEN DESIGNING WITH THE NEW SOHO DOOR STYLE

Its clean, crisp inside and outside profiles allow this door to be designed with both a contemporary feel as well as a sleek inset design. Unlike others that simply attach a piece of molding to the face of their door, Rutt handcrafted a specially designed outside edge molding to encapsulate the side of the door panel thus eliminating any unsightly seams. The SoHo is a 1" thick door with matching drawer front and will be made available in a large variety of our standard wood species as well as our painted finishes.

Door Material:	Flat Slab Veneer and MDF(paint) with 1/4" x 7/8" flat molding applied around perimeter of door and drawer face
Casework Options:	Classic and Regency Traditional - All inset frame details available Classic and Regency Contemporary
Hinge Options:	Concealed, Finial (all finishes)
Edge Treatment Options:	N/A

Inset casework option

SOHO Shown in Walnut with natural finish
