Paints and Stains

# RUTT FINISH COATINGS OVERVIEW

## Paints & Stains

- **Paints** – Conversion varnish (CV) paint system
- **Stains** – Solvent based, spray applied, hand-wiped
- **Glazes** – Solvent based, spray applied, hand wiped
- **Topcoats** – Solvent based, catalyzed conversion varnish

# PAINTS

## Paints – Conversion varnish (CV) paint system

- Primer
- Basecoat
- Topcoat
- Sheen and color are built into topcoat

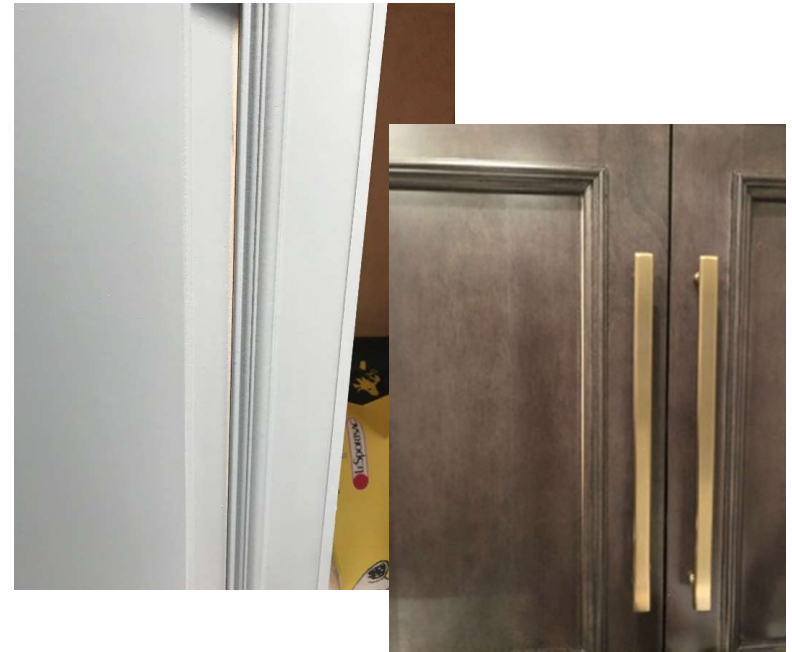

# PAINTS

## A Few Things to Remember

- Over time, due to expansion and contraction, you will see the joints opening.
- Due to environmental conditions, panels will expand and contract over time.
- BM Classic deck and SW Colorsnap deck are free matches.
- Custom paints will require a minimum of a sample chip for sign off/approval.
- Any artistic finishes will require a full sample door for sign off. Even if they are a finish that you can select as a “standard” finish.

# STAINS

Stains – Solvent based, spray applied, hand-wiped

- Sealer
- Topcoat

# STAINS

## A Few Things to Remember

- Stains are meant to accentuate the natural beauty of the wood.
- There will be noticeable differences from door to door and sometimes within doors due to graining and wood characteristics.
- Any artistic finishes will require a full sample door for sign off. Even if they are a finish that you can select as a “standard” finish.

# SHEEN

- Typically expressed in degrees; the lower the number the less gloss
- 5 (stain only), 10, 30, 45 are standards
- Other Sheens may be available by request

# CABINET FINISHES: MAINTENANCE

- Regular cleaning: Soft damp cloth with a mild detergent
- Guardsman® Purifying Wood Cleaner & Polish
  - Available direct at [www.guardsman.com](http://www.guardsman.com)

# RUTT ALTERATIONS

# CABINET ALTERATIONS

- Cabinet alterations are done to the doors, drawers, and cabinetry before the cabinetry is finished
- Sanded corners
- Pegs & plugs (Not pictured)
  - Pegs are square
  - Plugs are round

ALL REQUIRE SAMPLE DOOR APPROVAL

CHAIN MARKS

SCORED

WORM HOLES

# FINISH ALTERATIONS - GLAZE

## Burnished

- Glaze is applied, flat areas are wiped clean leaving glaze in the cracks & profiles
- Ornate doors will have more glaze hang-up

REQUIRES SAMPLE DOOR APPROVAL

# FINISH ALTERATIONS - GLAZE

## Antiquing

- Glaze is applied, wiped gently to leave streaks, then smoothed with a brush – creating a striated effect
- Corners cleaned out
- Ornate doors will have more glaze hang-up

**REQUIRES SAMPLE DOOR APPROVAL**

# FINISH ALTERATIONS – BRUSHED PAINT

- Mimics a hand-brushed painted look
- Available in all paint colors – including custom paints
- Available with burnished glaze technique
- Paint grade species only

**REQUIRES SAMPLE DOOR APPROVAL**

# FINISH ALTERATIONS – SAND THROUGH

- Random sanding at corners & edges to give worn affect
- Available on stains or paints
- Only available on paints when cherry, mahogany, alder, or maple is selected
- Thinned paint is used exposing the wood grain; causing the paint color to change

REQUIRES SAMPLE DOOR APPROVAL

# FINISH ALTERATIONS – RUB THROUGH

- Random sanding at corners & edges to give worn effect
- Full coverage paint only
- Available on paints when cherry, mahogany, or maple is selected

REQUIRES SAMPLE DOOR APPROVAL

# FINISH ALTERATIONS – SPLATTER & COWTAILING
