

MODERN LIFESTYLE

LUCERNE Grey Obechie Architectural Composite
Veneer with Natural Stain

PURE MAGIC. TRANSFORMING THE IMAGINED INTO REALITY.

Since the founding of our Lancaster, Pennsylvania based company over 60 years ago, the luxury of “creating magic” has inspired our team of skilled artisans and engineers. It’s that same luxury, the ability to craft the never before, that releases the imaginations of each Rutt authorized design firm, encouraging them to create unique spaces for the most discriminating clientele.

MATERIALS

Small spaces are made large, bold and beautiful with rare wood from nature's gallery. Rutt's network of trusted suppliers provides access to the world's most unique species, harvested under strict environmental guidelines to ensure sustainable natural wood resources for future generations.

This urban loft is but eight cabinets, fit in Lucerne styling with real Central African Zebrawood veneer, and it's an original work of art. The kitchen in this downtown Nashville, Tennessee loft proves that visual impact is in the details.

The coplanar sliding doors featured in the lower left space are crafted from Quartered Fumed Siberian Larch veneer, laid-up in a diamond match pattern.

FINISHES

Rich stained finishes, clean painted surfaces, a complex glaze or a timeworn distressing package - the finished surfaces of your space define the room's character.

This featured Maine Contemporary combines the soft tone of our Flat Iron Grey stain on Walnut with our Linen Paint, creating a sophisticated, yet modern marriage of tones and textures. Should you desire a custom finish or technique to complete your vision, Rutt's color technicians are adept at extending our palette by fulfilling custom requests.

and Flat Iron Grey Stain on Walnut

TECHNOLOGY

To improve the functionality of your space is to increase your enjoyment in its use.

Illuminate your cabinets. At Rutt, we use state of the art LED lighting technology in configurations that illuminate a cabinet's interior upon the opening of a door or drawer. These fully integrated, plug-and-play lighting options instantly blanket the cabinet's interior with light, giving a clear view of all its contents.

Open your cabinets with ease. For the ultimate in convenience, Rutt offers electronic lift systems and touch technology on select doors and drawers. These cutting edge upgrades provide access to cabinet interiors with just a simple touch. Lift-up doors, such as those featured in the photo above, provide full access to cabinet storage and are easily closed with the press of a button.

RUSKIN SERIES

Created in collaboration with renowned designer Scott A. Stultz, the styling of this series is rooted in history and theory, with a contemporary yet timeless sensibility. The Ruskin series is inspired by the most enduring Classically influenced architecture, encompassing the temples of Greece, the great cathedrals, the Arts & Crafts movement and modernism. It whispers familiarity while speaking a fresh and unique design language.

EXETER SERIES

Exeter, inspired by the work and convictions of Lutyens, is a design language that bridge the gap between the familiar comfort of traditional styles and the clean simplicity of Modern Minimalism.

EXETER Shown with Super White Paint

PRAIRIE SERIES

Like the American landscape for which it is named, Prairie, on first glance, evokes vast, quiet space - then the eye is drawn in to layers of fine detail as the richness of this elegantly understated design emerges.

WARDROBES

Every room deserves a first class upgrade. While known for exquisite kitchen cabinetry, Rutt craftsmanship and intelligent storage reaches beyond that of culinary purpose and extends into any space imaginable. Amenities, crafted using the finest mahogany, store precious garments and fine accessories in this well-tailored dressing room.

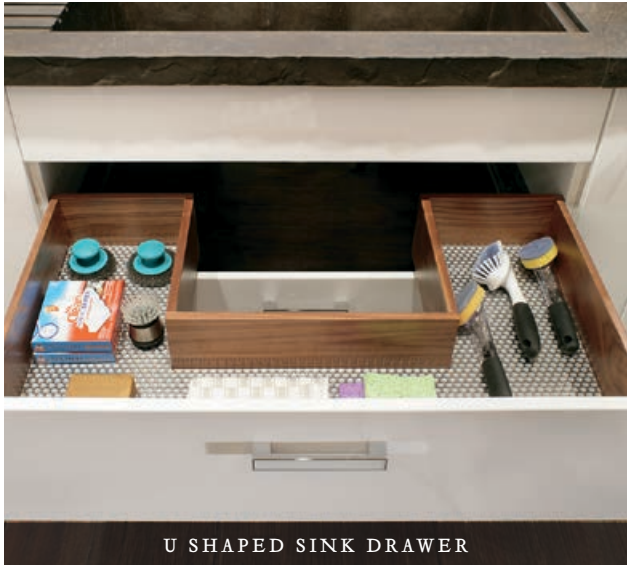

SOMETHING MORE

The spaces contained within these pages were created, not in a matter of hours by way of a simple program that stamps out ordinary kitchen designs, but rather through an intimate, complex, and riveting process. Each space was articulated by a professional kitchen designer, specially trained to guide clients through the multitude of function and aesthetic considerations essential to planning the spaces in your home. Dreams are heard. Relationships are built. Character is realized. We invite you to contact the authorized Rutt HandCrafted Cabinetry design studio in your area.

ENDLESS CHOICES

The following pages offer a small glimpse of styles, materials and finish possibilities for your Rutt cabinetry. Since all of our projects are built to order, with styles ranging from traditional to contemporary, and everything in between, the choice to feature an existing Rutt door configuration for your cabinetry or to customize your design entirely is yours. Either way, the finished product will be a true work of art, handcrafted by some of the best artisans in the industry, right here in America.
